About us

At Kriyati, we transform creativity into AI-driven success, empowering businesses with intelligent automation, advanced analytics, and generative AI
Our expert team turns data into actionable insights, driving efficiency, innovation, and growth. We don't just build solutions—we redefine possibilities for a smarter future.

We Create Intelligence through Innovation

Accelerate with data

Unlock actionable insights and drive continuous innovation with Datwa Labs' advanced data science solutions.

Cloud-powered analytics

Seamlessly migrate, integrate, and optimize your analytics processes with our tailored cloud solutions and expert support.

Custom data solutions

We use GenAI assistants to accelerate development by automating tasks, optimizing resources, and integrating LLMs, RAG, and multimodal AI.

Data-driven experiences

Enhance customer journeys with actionable, personalized insights for a smarter, more engaging experience.

Industries we serve

Kriyati delivers customized solutions for diverse sectors, ensuring high-quality technology and seamless digital advancement.

| Retail | Manufacturing | Education | Healthcare | BioTech | Logistics & Supply Chain |
| Agriculture | Energy | Hospitality | Sustainability | NPO | Pharma |

Our services

We offer end-to-end solutions across industries, from ideation to execution.

GenAI Engineering
